

Red Hat Certified Architect: DevOps

A Red Hat® Certified Architect (RHCA) with a DevOps concentration is a Red Hat Certified Engineer (RHCE) or Red Hat Certified Developer who has attained Red Hat's highest level of certification, proving their skills and knowledge in technologies and practices that can accelerate the process of moving applications and updates from development through the build and test processes and on to production.

Courses Outline:

DevOps concentration skills include:

- Multiple approaches to container management and automation
- Multiple approaches to configuration management and automation

For this concentration, complete these 5 certifications:

- [Red Hat Certificate of Expertise in Platform-as-a-Service](#) (DO280)
- [Red Hat Certificate of Expertise in Atomic Host Container Administration](#) (RH270)
- [Red Hat Certificate of Expertise in Containerized Application Development](#) (DO276)
- [Red Hat Certificate of Expertise in Ansible Automation](#) (DO407)
- [Red Hat Certificate of Expertise in Configuration Management](#) (DO405)

To attain RHCA status, a RHCE or a RHCJD must pass 5 exams:

- [EX270 – Red Hat Certificate of Expertise in Atomic Host Container Administration](#)
- [EX276 – Red Hat Certificate of Expertise in Containerized Application Development exam](#)
- [EX280 – Red Hat Certificate of Expertise in Platform-as-a-Service exam](#)
- [EX405 – Red Hat Certificate of Expertise in Configuration Management exam](#)
- [EX407 – Red Hat Certificate of Expertise in Ansible Automation exam](#)
